Other Important Information about your Outpatient Prescription Drug Benefits

You are responsible for paying the lower of the applicable Copayment and/or Coinsurance or the retail Network Pharmacy's Usual and Customary Charge, or the lower of the applicable Copayment and/or Coinsurance or the mail order Network Pharmacy's Prescription Drug Cost.

For a single Copayment and/or Coinsurance, you may receive a Prescription Drug Product up to the stated supply limit. Some products are subject to additional supply limits.

Specialty Prescription Drug Products supply limits are as written by the provider, up to a consecutive 31-day supply of the Specialty Prescription Drug Product, unless adjusted based on the drug manufacturer's packaging size, or based on supply limits. Supply limits apply to Specialty Prescription Drug Products whether obtained at a retail pharmacy or through a mail order pharmacy.

Some Prescription Drug Products or Pharmaceutical Products for which Benefits are described under the Prescription Drug Rider or Certificate are subject to step therapy requirements. This means that in order to receive Benefits for such Prescription Drug Products or Pharmaceutical Products you are required to use a different Prescription Drug Product(s) or Pharmaceutical Product(s) first.

Also note that some Prescription Drug Products require that you notify us in advance to determine whether the Prescription Drug Product meets the definition of a Covered Health Service and is not Experimental, Investigational or Unproven.

If you require certain Prescription Drug Products, we may direct you to a Designated Pharmacy with whom we have an arrangement to provide those Prescription Drug Products. If you are directed to a Designated Pharmacy and you choose not to obtain your Prescription Drug Product from the Designated Pharmacy, you will be subject to the Non-Network Benefit for that Prescription Drug Product.

Georgia law allows you to request, without penalty and in a timely fashion, that we authorize payment for Prescription Drug Product that is not covered on any tier of the PDL if: You had been taking the Prescription Drug Product prior to its exclusions from coverage and we determine, after consulting with the prescribing physician, that the PDL's Therapeutically Equivalent drug has been ineffective in the treatment of the disease or condition; the PDL's Therapeutically Equivalent drug causes or is reasonably expected to cause adverse or harmful reactions in the patient. If the request is denied, you have the right to appeal that decision. The process is described in your Certificate in Section 6: Questions, Complaints and Appeals. You may also call Customer Care at the telephone number on your ID card for assistance.
